

Better technology. Better pricing. One trusted partner.

ComputerLand of Woodbridge helps organizations purchase technology more efficiently. Through long-standing relationships with leading hardware, software, and technology providers, we negotiate competitive pricing and volume discounts on our customers' behalf — one point of contact across more than 1,200 OEM vendors. An industry pioneer since 1976, we specialize in government and academic customers, and serve companies from one-hundred employees to the Fortune 500.

CORE COMPETENCIES

- **Technology procurement & sourcing**
Computers, servers, networking, software, security, cloud, and AI solutions — direct shipment from warehouses throughout the country, with order staging, asset tagging, and centralized configuration.
- **Volume & negotiated pricing**
Enterprise buying power through long-standing OEM relationships — competitive pricing and volume discounts negotiated on your behalf.
- **Licensing & renewals**
Software licensing, subscriptions, and renewals identified, negotiated, and handled on time.
- **Networking & systems integration**
Network consulting, design, delivery, installation, and support across platforms and geographies.
- **Cloud & security solutions**
Cloud infrastructure and migrations, firewalls, and endpoint protection.
- **Technology staffing**
Trained, certified professionals to augment your IT staff.

DIFFERENTIATORS

- In business since 1976 — part of the network first to sell the IBM PC
- Locally owned and managed; personalized account support
- 1,200+ OEM vendor product list with a single point of contact
- Government and academic procurement specialists
